

Getting Started Bead Making Series:
Fabulous Zendoodle Fabric Beads
with Kristal Wick

FROM BEADS TO JEWELRY

Once you've created your Fabulous Zendoodle Fabric beads, you're ready to wear them proudly by turning them into jewelry!

The easiest way to make your beads into ready-to-wear jewelry is by using eye pins or head pins.

- Keep in mind that you need to choose end components that are larger than the holes in the bead. Swarovski pearls or crystals make great end caps!

- Take an eye pin or a head pin and slide on a pearl or a crystal. Then add your personalized doodle bead, and finally, put another pearl or crystal on the top.

- Now, just make a simple loop at the top (or a wrapped loop if you're fancy). You can add an ear wire if you're going the earring route. You can attach lobster clasps or jump rings to turn them into necklaces, art quilt embellishments, key chains, zipper pulls – the sky's the limit!
