

MATERIALS SHOPPING LIST

LOOM

Pick one that suits your needs and you are comfortable using.

NEEDLE

Choose loom needles, as well as smaller needles for working with smaller pieces.

THREAD

Use a nylon base or heavier duty thread, such as FireLine, Wildfire, or Nonafil.

BEADS

Stock up and use any you like! Think small, large, colorful and shaped.

SCISSORS

A small pair of scissors is ideal for cutting your threads closely to project.

CLASP

There are many fun clasps on the market. Use one that fits the style of your project!

BEAD MAT

Bead mats are great for keeping all your beads in one place.

WAXES/ CONDITIONERS

This is optional. These help with tension, knotting and tangling. Beeswax works great as well!

PLIERS

This is optional. Pliers are great for extra grip when pulling your needle through beads.

BEAD SCOOP

This is optional. This tool is a great for picking up and putting back loose beads.

BEADING AWL

This is optional. This tool helps remove knots in thread without piercing your thread.

CORDING

Get creative with warp threads by using leather and cotton cord!
